Timberline Constructors, Inc.
P.O. Box 129
Pollok, Texas 75969

Dear Sirs:

I have been an administrator in Wells ISD for the past nine years. During that time we have conducted several projects with Timberline Constructors. Most recent projects were the renovation of a school gymnasium and the replacement of a roof on our primary building. The service of Timberline on these projects was very satisfactory.

The contract performance on each project has been exemplary. I found the management and project superintendents to be very sensitive and responsive to our needs. Our satisfaction was clearly a top priority to all of Timberline's associates. Additionally, their sub-contractors are of highest quality. We look forward to working with Timberline Constructors, Inc. on projects in the future.

Please feel free to contact us if more information is needed.

Sincerely,

Dale Morton
